## **Policy on Positive Behavior Interventions and Support, and Restraint and Seclusion**

Draft Distributed to Achievement Committee 09.10.12

### **I. Purpose**

The purpose of this policy is to create a statewide policy that applies to all school districts regarding the use of positive behavior intervention and supports, and the limited use of restraint and seclusion. The Ohio Department of Education promulgates this policy in accordance with the Governor's Executive Order 2009-13S, the State of Ohio Policy on Restraint and Seclusion Practices dated May 17, 2010, and in accordance with guidance from the United States Department of Education.

Every effort should be made to prevent the need for the use of restraint and for the use of seclusion. The use of a non-aversive effective behavioral system such as Positive Behavioral Intervention and Supports (PBIS) shall be used to create a learning environment that promotes the use of evidence based behavioral interventions, thus enhancing academic and social behavioral outcomes for all students.

Restraint or seclusion shall not occur, except when there is an immediate threat of physical harm to the student or others, and shall occur only in a manner that protects the safety of all children and adults at school. Every use of restraint or seclusion shall be documented and reported in accordance with the requirements set forth below.

### **II. Applicability**

This Ohio Department of Education Policy applies to all school districts in the State of Ohio.

## Policy on Positive Behavior Interventions and Support, and Restraint and Seclusion

Draft Distributed to Achievement Committee 09.10.12

### V. Positive Behavior Intervention and Supports

- A. Every student deserves to be treated with dignity, be free from abuse, and treated as a unique individual with individual needs, strengths, and circumstances. Schools should implement an evidence-based school wide system or framework of positive behavioral interventions and supports.
- B. Education environments shall be structured to greatly reduce, and in most cases eliminate, the need to use restraint or seclusion. Positive Behavior Intervention and Supports (PBIS) creates structure to the environment using a non-aversive effective behavioral system. It is a decision making framework that guides selection, integration, and implementation of evidence-based academic and behavioral practices for improving important academic and behavior outcomes for all students.
- C. The PBIS prevention-oriented framework or approach applies to all students, all staff, and all settings. PBIS, when integrated with effective academic instruction, provides the support students need to become actively engaged in their own learning and academic success.
- D. Components of a Positive Behavior Intervention and Supports include:
  - 1. Trained school staff to identify conditions such as:
    - a. Where, under what conditions, with whom and why specific inappropriate behavior may occur.
    - b. Preventative assessments should include:
      - i. A review of existing data,
      - ii. Interviews with parents, family members and students and
      - iii. Examination of previous and existing behavioral intervention plans.
    - c. With the analysis of this data schools shall develop and implement preventative behavioral interventions and teach appropriate behavior.
      - i. Modify the environmental factors that escalate the inappropriate behavior.
      - ii. Support the attainment of appropriate behavior.
      - iii. Use verbal de-escalation to defuse potentially violent dangerous behavior.
  - 2. All students who display severe or a pattern of unhealthy or disruptive behaviors that impede the learning environment for themselves and/or others should have a functional behavioral assessment to identify their needs.

## Policy on Positive Behavior Interventions and Support, and Restraint and Seclusion

- a. Functional behavioral assessments should be followed by behavioral intervention plans that incorporate appropriate positive behavioral interventions.
  - b. Families should be included in the development of the behavior intervention plans and given information that can help families extend positive behavioral supports at home.
3. Schools must establish a system that will support students' efforts to manage their own behavior; implement instructing techniques in how to self-manage behavior, decrease the development of new problem behaviors; prevent worsening of existing problem behaviors; redesign learning/teaching environments to eliminate triggers and maintainers of problem behaviors. The system should include family involvement as an integral part of the system.
